

Dadu rain up date
September 02, 2011
Bakht Jamal
Executive Director,
JORDAN

Monsoon rain spell is continue in major parts of Dadu district, hundreds mud made house demolished due to heavy rain, two death happen and three women were injured due to houses collapsed during currents rain situation.

According to a primarily survey conducted by JORDAN, four IDP camps are existing in Johi taluka, i.e. Government High School Haji Khan, Government High school Johi, Iqra block 1 primary school Johi and government primary school Dodo brihmani. In those IDP camps hundreds peoples have got protection due to damages of their houses. Most of the peoples are hungry in the camps since Eid day; here the most victims in the camps are children and women. IDPs are also facing shortage of food and wash since last three days. Yet no anyone came forward to help the IDPs in the camp. On the other side data collected by JORDAN more than two thousand houses are demolished due to heavy rain in various villages of taluka Johi.

Thirty percent houses of new colony block no 1 in Johi town are partially damaged whilst 10 percent mud made house are completely damaged in the colony, new colony is considered the largest populated colony in Johi town from area besides population perspective. Peoples of Johi town have been facing scarcity of drinking water due to heavy rain and long break down of electricity. More than seventy percent of population is fetching drinking water from outside of town from underground

water sources. But due to heavy rain people are unable to go out and fetch the drinking, right now mostly dwellers have been using rain water which can be caused of waterborn diseases outbreak.

Mr. Karuna team leader Sindh Care International in Pakistan visited johi flood affected areas and monitor the rain situation.

While from Kirtherthar hill ranges heavy rain water is gushing towards Johi F.P embankment and hitting it continuously since last three days but situation is in under control. In Kachhow area of taluka Johi more than 30 big villages were affected due to heavy rain. Only in village Dodo birhmani 121 mud made houses were demolished while 30 livestock lost.

Not only livestock but this heavy rain caused damages of the cotton and onions crops heavily. Due to super flood of 2010, food insecurity situation was existed at high level in Dadu district, while this rain increased the miseries of poor people from food insecurity perspective too.

According to rain forecast this rain spell will continue two days more which could be caused of heavy human, agriculture, livestock as well as shelter side in district Dadu.
